

## WACI NX Jr.

The WACI NX Jr. runs the powerful NX engine to control 2 serial and 2 IR ports. Whether you are using the NX+ or the NX Jr. Aurora Multimedia's WACI NX system is the world's most powerful non-proprietary IP control system. WACI is accessed through any web browser running on a wired or wireless Ethernet network and requires no special software; WACI is set up using web-authoring tools. Numerous RS-232/422/485, and IR control ports are available, and a robust IR learner is standard. WACI is also expandable using WACI NX Expansion modules for additional ports, video streaming, battery backup, power-over-Ethernet, and hard drive storage.

<b>Specifications</b>	
Size	Size: 5.80 x 4.90 x 0.90 inches (14.73 x 12.50 x 2.29 cm)
Hardware	Two 10/100T LAN Ports with Auto MDX and Auto Polarity Two 10/100T LAN Ports with Auto MDX and Auto Polarity Two IR/serial/1-way RS-232 ports. One IR Input Port. One IR Learner. Two 2-way RS-232 ports (Port 2 capable of RS-422/485). One High-speed, 2.1Gb/s card slot. One USB On-the-Go Port. One compact flash Type II slot for memory. OLED Display with 6 buttons. 15W 12v Power Supply. It also has an internal web server with built-in event manager.
