

# Casio Super Color XJ-SC215

Brightness (2500 ANSI Lumens) and color fidelity combine in the Casio Super Color XJ-SC215 for superior image quality. Casio's high-fidelity color rendering light engine algorithm and improved multi-segment color wheel have expanded the chromaticity region by approximately 10% producing superior color images. Color accuracy and brightness are maintained providing an ideal projection solution for users who require the best color reproduction. USB connectivity allows for PC-less or Wireless presentations (optional adapter required) for true presentation freedom. Whether it's a conference room installation or you are on the road the Casio Super Color XJ-SC215 projector ensures you the best performance.
