

Samsung 400UXn-M

Imagine creating an impactful video wall, assembling it yourself, then controlling it all over a single PC. You can do that with the SAMSUNG 400UXn-M display. Featuring an ultra-thin bezel and compatibility with our Interlocking Display (ID) kits, you can assemble virtually seamless video walls yourself in about 30 minutes. And with our included MagicInfo™-Pro Extension software, you can control multiple video walls of any configuration with a single server over your network, up to 25 displays per server. Impactful video walls easily assembled and easily controlled.
