

Samsung LN52B750

The **Samsung LN52B750** 52" 1080p HDTV is a dream machine for both film and TV fans and hardcore gamers. A 240 Hz refresh rate, Wide Color Enhancer and 150,000:1 dynamic contrast ration means you'll see the entire spectrum of color and luminance for rich, saturated images with intense detail and virtually no motion blur in fast moving action. The Ultra Clear Panel actually absorbs ambient light, virtually eliminating reflections. And if you're a gamer just imagine hooking up your console game or PC to a giant 52" screen with TruSurround to be *in* the action, not just watching it.
