

Samsung UN32C5000

Samsung presents an entirely new generation of ultra slim televisions using LED lighting to deliver sharper colour and enhanced contrast. The Samsung Series 5 LED combines award-winning ultra slim design with the most advanced technology available today. The HyperReal™ Engine helps to produce the best images possible and you can also create a wireless home network with the AllShare™ DLNA feature. The Series will become your single source of home entertainment with ConnectShare Movie™ and four HDMI inputs. Plus Samsung has been leading the way with its dedication to products that are gentle on the environment so that we can all live on a greener, cleaner planet.
