

CD4230T

**42" SLIM BEZEL
COMMERCIAL DISPLAY
WITH TOUCH SCREEN**

Interactive digital signage.

ViewSonic's 42" CD4230T Commercial Display features touch screen control powered by 3M's MicroTouch™ DST Touch System. The elegant slim bezel design and dynamic touch panel technology is ideal for use in mall kiosks, corporate directories, product selectors, hotel lobbies, training rooms and point of information applications. The high brightness, high contrast ratio and wide viewing angles clearly communicate your message regardless of ambient light. The fast 8ms response time delivers blur-free scrolling text or video. VGA and RS-232 inputs/outputs allow you to daisy chain multiple displays into your network and still control each display individually. Other inputs include HDMI, S-video, component, composite and PC RGB. The CD4230T with 3M touch screen technology sets a new standard for interactive digital signage displays.

Shown with optional stand.
